## RELATED ITEM ON SCOTLAND:

Our Genealogy Resource Library, located on the second floor of our Main Library at 5<sup>th</sup> & Copper in Albuquerque, New Mexico, USA, has a **Gazetteer of Scotland** where you can look up any village, town, city or significant landmark in Scotland. It often includes a village/town map. It also includes a set of 32 colored detailed maps of Scotland with a separate map index. The book is called:

**Scotland, an Encyclopedia of Places & Landscape.**

It was published in 2006 by the Royal Scottish Geographical Society.

They point out that they are obviously unable to keep the published book UpToDate, but they do keep their WEB Site current. See:
